** Use different colored markers to trace the various geographic lines.*

NAME _____

Water and Land Forms - Teacher Instructions

Find the following landforms on the North American map:

Island - Cuba is the large island off the coast of Florida. Also, Florida Keys, Long Island, Isle Royal (in the center of Lake Michigan).

Lake - Great Lakes, Great Salt Lake.

Isthmus - narrow strip of land connecting two larger pieces, such as the isthmus of Panama.

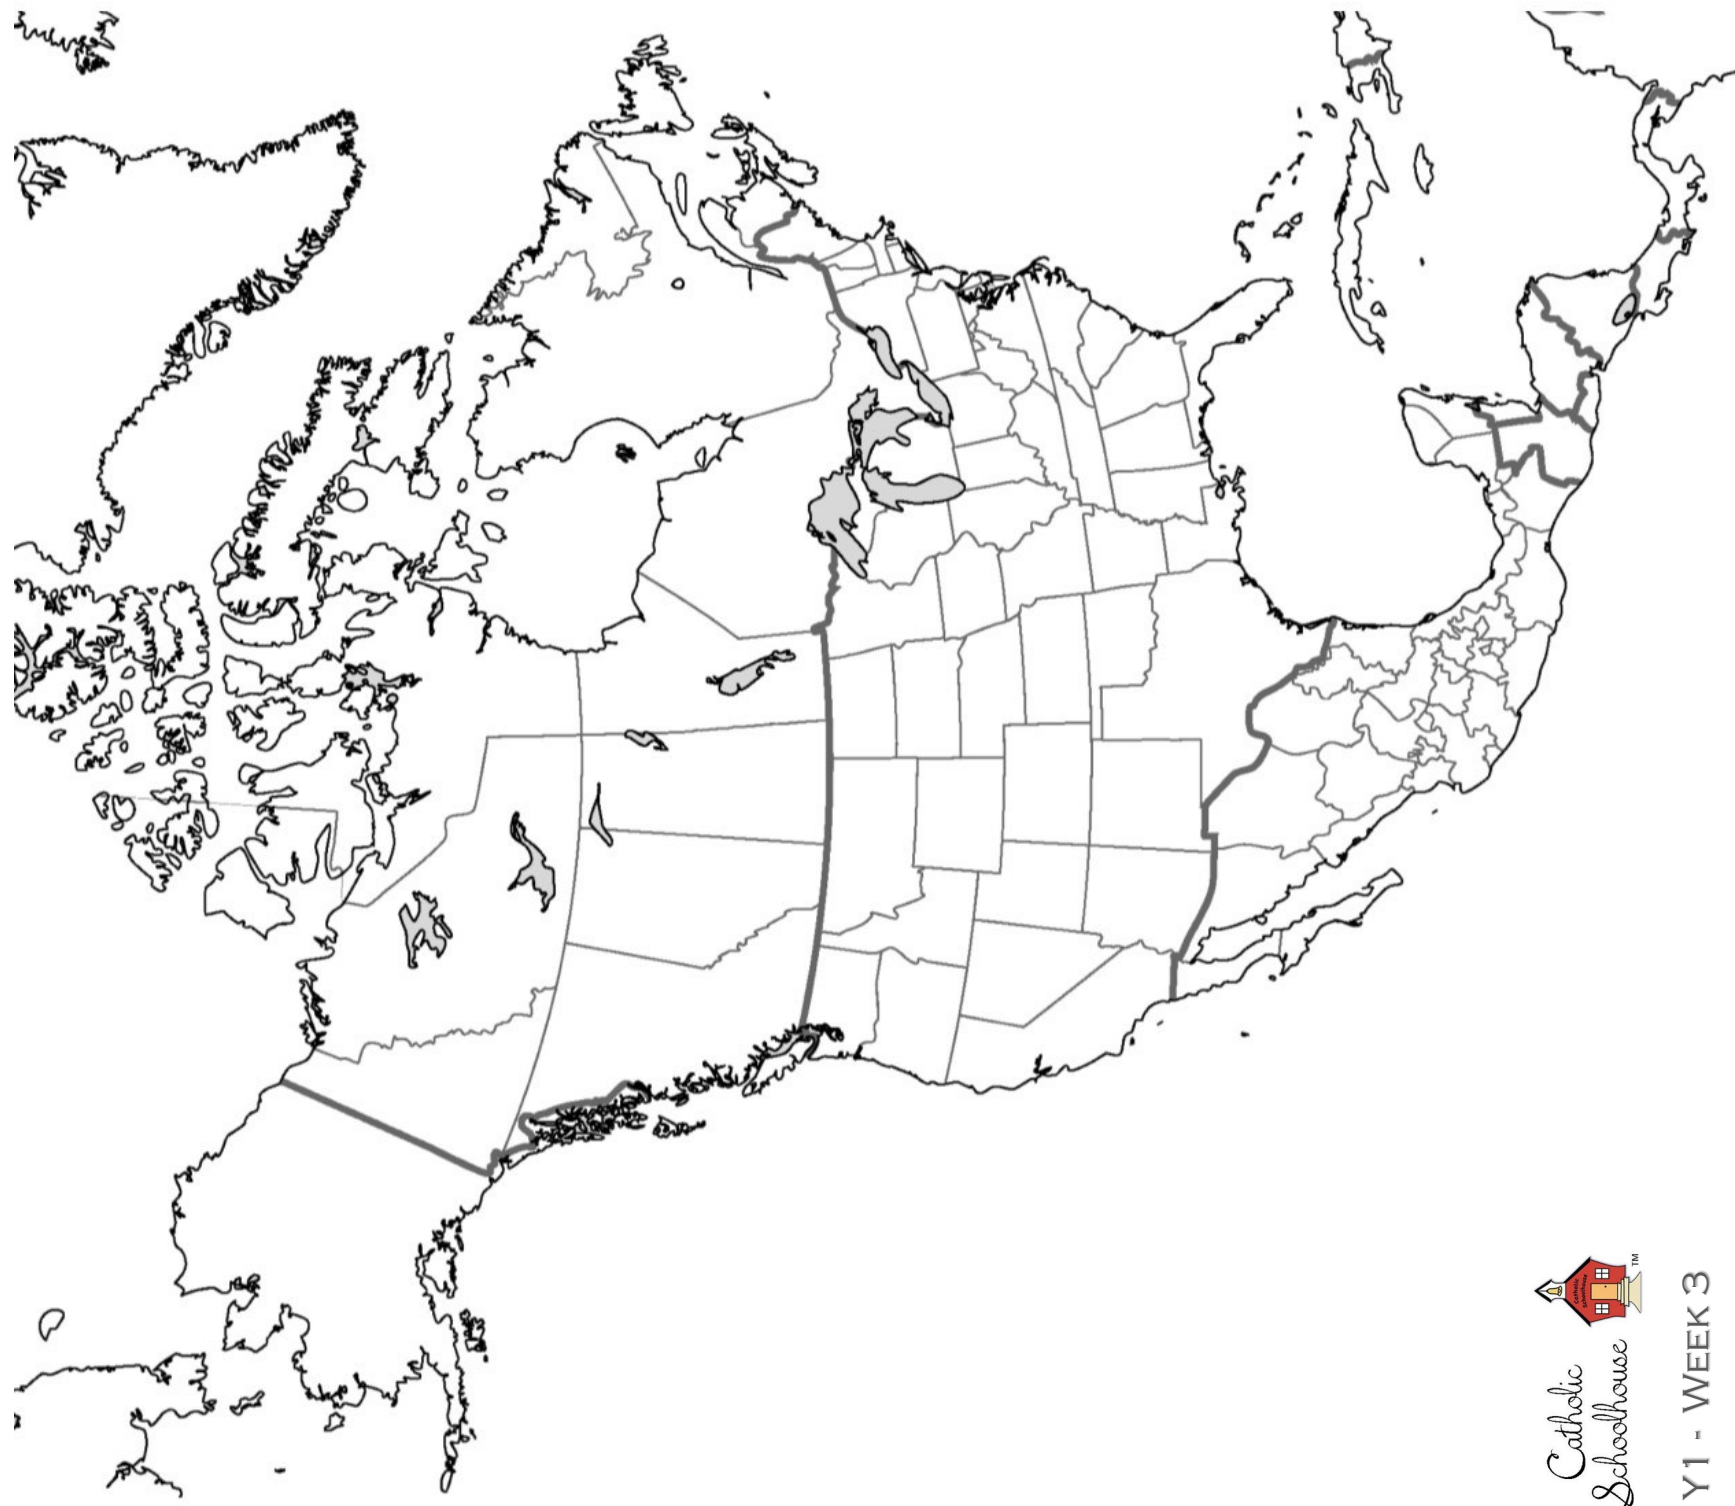

Bay - Hudson Bay in Canada, many others.

Peninsula - Florida is actually a large peninsula. There are many others.

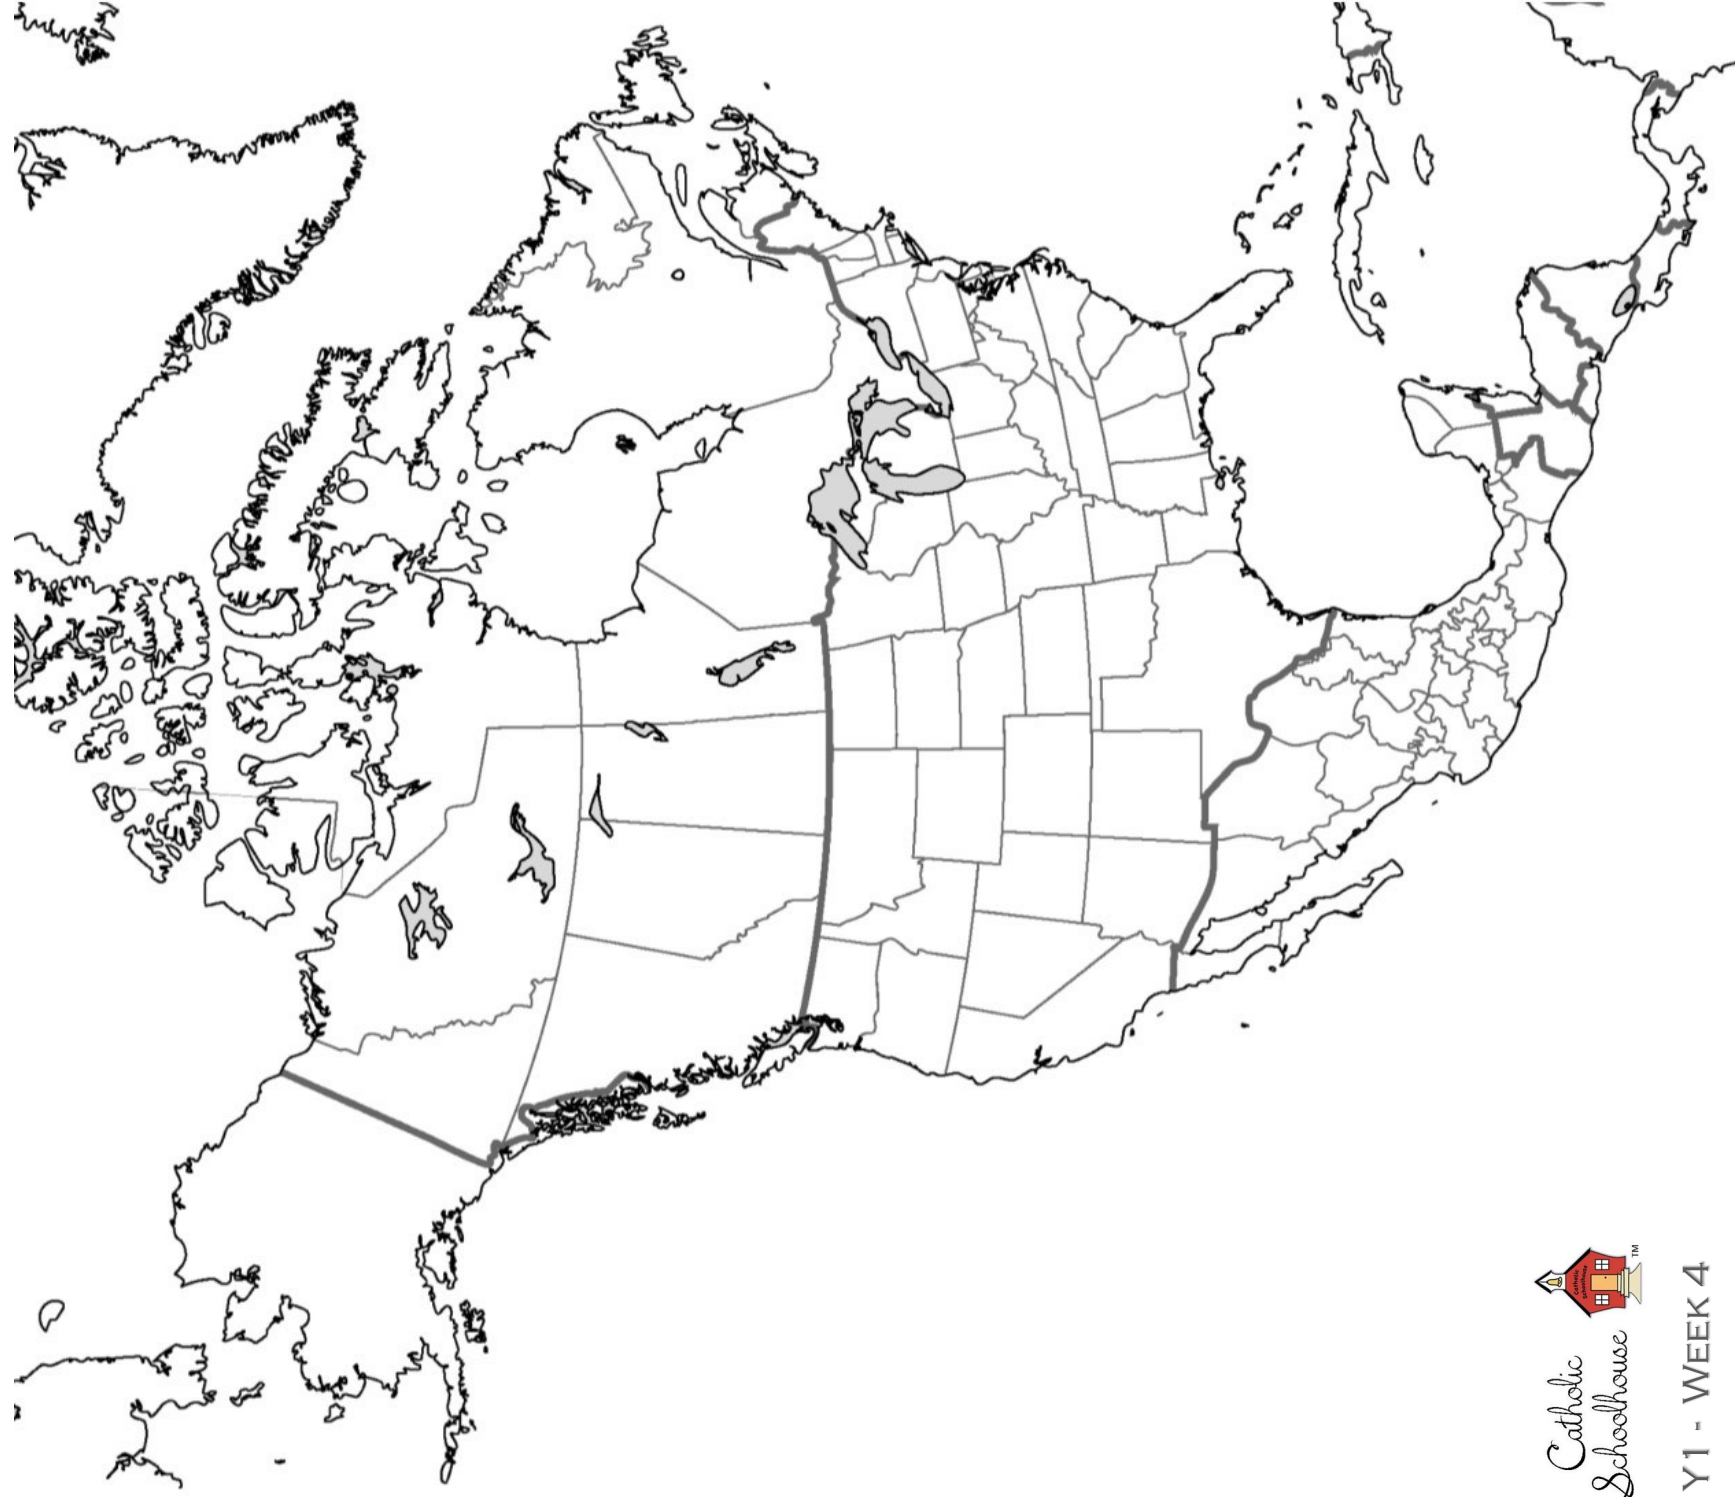

Strait - Bering Strait, Straits of Mackinac between Lake Michigan and Lake Huron.

Alternately, skip the map this week and do the water form booklet on the Catholic Schoolhouse blog.
