c. 3000 BC

Moses

What Is the Mass?

The Mass is the sacrifice of the new law in which Christ, through the ministry of the priest, offers Himself to God in an unbloody manner under the appearances of bread and wine.

Music

Percussion Instruments
Sistrum, Ancient Egypt and Iraq

Art

Ancient Art
Cave Art from Lascaux, France

Math

Skip count by twos: 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24
Skip count by threes: 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36

Science—Botany

Plants pick up nutrients and water through their roots. They move up the stem through xylem and phloem. Then, transpiration releases water through the leaf's stomata.

Latin

1st Conjugation, present tense (to love): *amo, amas, amat, — amamus, amatis, amant*

Language Arts

What are the eight parts of speech?

Nouns, Pronouns, Verbs, Adverbs, Conjunctions, Interjections, Prepositions, Adjectives

History

We've got to quit this wandering and settle down,
between the Tigris and Euphrates rivers, live in cities and towns.
Mesopotamia, the fertile crescent, will be our home;
we will farm its rich soil, and no longer will we roam. Mesopotamia.

Geography

Continents

North America
South America
Europe
Asia
Australia
Africa
Antarctica

Oceans

Atlantic
Pacific
Indian
Arctic
Southern

History

Noah's Ark

Unification of Upper and Lower Egypt

The Great Pyramid at Giza
c. 2555 BC

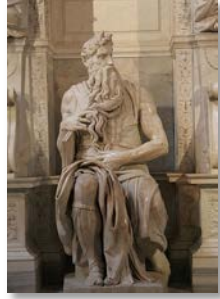

Seven Wonders of the Ancient World

Tower of Babel

Religion

Moses

Who said the first Mass?

Our divine Savior said the first Mass at the Last Supper the night before He died.

Music

Percussion Instruments
Mridangam, Ancient India

Art

Ancient Art
Bull Leaping Fresco, Knossos

Math

Skip count by fours: 4, 8, 12, 16, 20, 24, 28, 32, 36, 40, 44, 48
Skip count by fives: 5, 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60

Science—Botany

Plants need chlorophyll to make their own food with photosynthesis. Through respiration, plants use the food; it's really as easy as this. They use carbon dioxide to give off oxygen, making the air we breathe. These processes that plants must do happen in the leaves.

Latin

1st Conjugation, present tense (to love): *amo, amas, amat, — amamus, amatis, amant*

Language Arts

What is a noun?

A noun is a word that names a person, place, thing, or idea.

History

Ancient Egypt had different kingdoms throughout its long history. Rising up between declines there happened to be three. The first was called the Old Kingdom with the Sphinx, and Great Pyramid. The second was the Middle when Joseph finds favor with Pharaoh by the things he did. The last kingdom called the New brought wealth and territory, it was number three— ruled by King Thutmose III, he enslaved the Hebrews until Moses set God's people free.
